YASIR KHAN

Senior Flutter Developer | Flutter & Dart • Riverpod • Modern Clean Architecture

Mardan, KP, Pakistan | ykhkpk@gmail.com | +92 315 0012413

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience architecting, building, and delivering high-performance cross-platform mobile applications for iOS and Android. Specialist in Modern Clean Architecture (Domain, Data, Presentation), strict SOLID principles, advanced state management with Riverpod 2.6+, and responsive multi-platform UI engineering. Deep expertise in Generative AI/LLM streaming integration, real-time speech-to-text audio processing, custom canvas rendering with CustomPainter, offline-first local persistence (Hive, Isar, SQLite), and Platform Channels for native hardware interoperability. Track record of delivering 10+ commercial applications with smooth 60fps animations, rock-solid architecture, and seamless App Store & Google Play Store distribution.

CORE HIGHLIGHTS

- 5+ Years Dedicated Flutter & Dart Experience
- Modern Clean Architecture (Domain/Data/Presentation/Core)
- Riverpod 2.6+ State Management Specialist (AsyncNotifier)
- Audio & Real-Time: Speech-to-Text Streaming Pipeline
- Local Persistence: Hive, Isar, SQFlite, Secure Storage
- 10+ Commercial Cross-Platform Apps Shipped
- Strict SOLID Protocols & Decoupled Repositories
- Generative AI Integration: Token Streaming LLM Chat & Multi-Modal
- Custom UI & 60fps Performance: CustomPainter & Canvas Geometry
- App Store Connect & Google Play Console Automated CI/CD

PROFESSIONAL EXPERIENCE

Senior Flutter Developer (Lead Cross-Platform Architect)

May 2022 – Present

Ainsoftech — Lahore, Pakistan

- **Stylo AI (Flutter — Dart, Riverpod 2.6+, Large Language Models, Multi-Modal Vision):** Architected an AI styling platform with Clean Architecture and Riverpod; engineered custom streaming LLM parser converting unstructured model responses into typed Dart domain models with resilient JSON boundary extraction; integrated camera and weather telemetry.
- **AI Prompt Suite & Generator (Flutter — Dart, Riverpod, LLM Streaming, Speech-to-Text):** Developed prompt engineering studio with real-time token-streaming LLM chat and low-latency audio capture for live voice transcription; built template management with dynamic variables and markdown preview.
- **EasySkills LMS (Flutter — Dart, Riverpod, Clean Architecture, Video Streaming):** Built enterprise LMS featuring passwordless 6-digit OTP authentication and offline lesson caching; integrated Bunny.net CDN video streaming with custom playback controls and progress tracking.
- **Prompi v3 (Flutter — Dart, Riverpod, Generative AI Creative Studio):** Architected AI prompt generator with real-time parameter controls, categorized templates, and multi-provider AI endpoint routing.
- **Quran Companion (Flutter — Dart, Riverpod, Clean Architecture, SQLite):** Built offline-first Islamic companion application with clean domain use cases, SQLite persistence, and high-precision prayer calculation engine.
- **Engineering Leadership:** Mentored junior Flutter developers on Dart best practices, Riverpod 2.x patterns, Clean Architecture folder structure, and automated CI/CD pipelines.

Flutter Developer

January 2022 – May 2022

CodingStorms Technology — Islamabad, Pakistan

- Developed and deployed cross-platform mobile apps for iOS and Android using Flutter SDK and Dart.
- Implemented scalable state management solutions using Riverpod and BLoC with decoupled repository layers.
- Translated complex Figma prototypes into pixel-perfect, responsive Flutter widgets matching platform-specific UI patterns (Cupertino and Material Design).
- Integrated RESTful backend services using Dio, interceptors for token refresh, and Firebase services (Auth, Firestore, Cloud Storage, Crashlytics).
- Configured automated build flavors (dev, staging, prod) and managed TestFlight and Google Play distribution.

Junior Flutter Developer

2020 – 2021

Solution of Technologies — Islamabad, Pakistan

- Developed mobile user interfaces and application features using Flutter and Dart.
- Implemented client-side data persistence with Hive and SharedPreferences, and integrated REST APIs with HTTP and JSON serialization.
- Handled responsive UI adaptations across multiple screen sizes and tablet form factors; resolved UI bugs and improved frame rendering performance.

KEY PROJECTS

Stylo AI (Flutter, Dart, Riverpod 2.6+, Generative AI, Multi-Modal): AI fashion recommendation platform using structured LLM response extraction, weather telemetry, and occasion detection.

AI Prompt App (Flutter, Dart, Riverpod, Streaming LLM, Speech-to-Text): AI-powered prompt generator featuring real-time streaming LLM chat and low-latency microphone audio streaming feeding live speech-to-text.

EasySkills LMS (Flutter, Dart, Riverpod, Clean Architecture, Bunny CDN): Learning Management System featuring passwordless 6-digit OTP authentication, Bunny.net CDN video streaming, and offline lesson caching.

Prompi v3 (Flutter, Dart, Riverpod, Generative AI Studio): Creative prompt crafting studio with dynamic parameter sliders, real-time preview, template management, and cloud synchronization.

Quran Companion (Flutter, Dart, Riverpod, Clean Architecture, SQLite): Cross-platform Islamic application featuring clean domain architecture, offline prayer calculations, and SQLite persistence.

TECHNICAL SKILLS

Languages & Core: Dart 3, Flutter SDK (3.x), Java/Kotlin & Swift (Platform Channels)

State Management: Riverpod (2.6+ Notifier/AsyncNotifier), BLoC, Provider, StateNotifier

Architecture & Patterns: Modern Clean Architecture (Domain/Data/Presentation/Core), Strict SOLID Principles, Repository Pattern, Dependency Injection

UI & Graphics: CustomPainter, Custom Canvas, Rive, Lottie Animations, Material Design 3, Cupertino Widgets, Responsive Layouts

Storage & Persistence: Hive, SQLite / SQFlite, Isar, SharedPreferences, Flutter Secure Storage

Networking & AI: Dio, Retrofit, WebSockets, REST APIs, Streaming Token APIs (OpenAI, Gemini), Real-Time Speech-to-Text, Firebase (Auth, Firestore, FCM)

DevOps & Tooling: VS Code, Android Studio, Xcode, Git, CI/CD Pipelines, Google Play Console, App Store Connect, Fastlane, CI/CD

EDUCATION

Bachelor of Science in Computer Science (BSCS) — Sarhad University of Science & IT Graduated
